

## Stanwell Technic Limited

### Quality Policy

Stanwell Technic Limited supply, repair and refurbish beer and soft drinks dispense equipment within the United Kingdom.

It is the policy and intent of the company, to provide our products and services to fully address our client's business needs, satisfying their needs and expectations and supporting our strategic direction.

The objective of the company is to provide such services in a professional manner conforming to comply with specific client requirements whilst also complying with all applicable standards, statutory and regulatory.

The company's business policy is of continual improvement throughout all such service undertakings, to our client base.

It is the company's policy to establish and maintain an effective Quality Management System (QMS) that meets and addresses and complies with the requirements of the ISO 9001:2015 Standard.

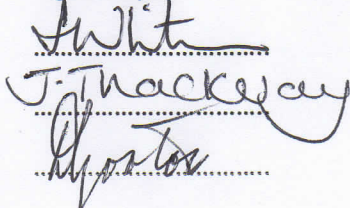

This QMS system regularly evaluates the processes involved and ensures consistency in meeting customer requirements.

Customer focus and quality objectives have been established and included within the QMS and the application and implementation of ISO 9001 ensures a framework for continual improvement within the Organisation.

It is an accepted responsibility of the management team, to ensure that this quality policy is understood, implemented and maintained via line management, to all employees.

Whilst always mindful of changing needs and requirements of both the Company and its Customers, this policy will be reviewed by top management for ongoing suitability at Management Review within the context of the business and the needs and expectations of all interested parties.
